

CODEX ENTRY: FRT-CX-Δ01

Guild Motto: “Unified in resonance — scattered in silence.”

Interpretation:

A reminder to all Fretwalkers that harmony emerges through collaboration, yet the absence of connection leads to isolation. Collective action amplifies the signal; division dampens it. The phrase embodies the duality of sound and silence, presence and absence, reflecting the fragile balance in which our guild operates.

Usage:

Chanted at the beginning of gatherings, encoded in transmissions, and inscribed on instruments or signal devices as a subtle reinforcement of unity.

Visual Symbol:

Two overlapping waveforms, partially converging at the center but fading at the edges, representing both unity and dispersion.
